

Tualatin Valley Water District

HAVE YOUR BACKFLOW DEVICE TESTED AUTOMATICALLY AND SAVE TIME AND MONEY

Per Oregon Administrative Rule 333-61-0070 and District Rules and Regulations all approved backflow prevention assemblies must be maintained and tested at least annually to protect the public water system.

For your convenience Tualatin Valley Water District (TVWD) has implemented a new backflow assembly testing program for residential customers only. You may now choose to have TVWD arrange for your backflow assembly(s) to be tested annually by a certified tester.

If You Choose This Option

- TVWD will schedule your assembly(s) to be tested for a fee of \$35.00 each
- A testing fee of \$35.00 per assembly will be added to your water bill each year that you participate in this program
- The testing fee includes repair costs up to \$50.00
- Customer authorization is required prior to completing repairs exceeding \$50
- All repair costs that exceed \$50.00 will be the full responsibility of the customer
- The \$50.00 credit will be applied towards repair costs only when repaired by a TVWD contractor
- Upon completion of the test, an orange door hanger and copy of the test report will be left on your door

If you choose not to enter this agreement, you are still responsible for scheduling your backflow assembly to be tested annually. For additional information please visit our Web site at www.tvwd.org.

Eligibility Requirements

- Applicants must be a Tualatin Valley Water District, Valley View Water District or Southwood Park Water District residential customer with a current water account in good standing. **Business, Industry, Government and Multi-family customers are not eligible at this time.**
- All backflow device assemblies must be located on a residential property where the water is provided by TVWD

How To Apply

To apply for this program, please complete the form on the back (one form per backflow assembly) and return it to:

By Mail

Tualatin Valley Water District
Attn: Backflow Program
1850 SW 170th Ave
Beaverton, Oregon 97006

Electronically

Device Information	
This information may be found on the bottom of your test notification letter	
Site Address:	
Device Size:	Device Make/Model:
Device Serial No:	Device Location on Property:

I certify the information I have provided is true and correct. I grant Tualatin Valley Water District permission to schedule and authorize a certified backflow tester to enter the property listed above to test the backflow prevention device to assure program requirements have been met.

By signing this agreement I choose to voluntarily enter into this TVWD backflow assembly testing program which I understand will include a \$35.00 fee (per assembly) to be added to my water bill upon completion of an assembly test. I also understand that if the repair cost of my device exceeds \$50.00 it is my responsibility to pay for any additional repairs and must be repaired by a TVWD contractor. By signing below I understand the terms of this agreement will continue until I contact TVWD to remove myself from the program or I move. A fee of \$35.00 per assembly will be applied to my water bill each year that I am in this program.
