REPORTS OF MEETINGS ATTENDED AND COMMISSIONER TOPICS

A report was given by each Board member of meetings they attended for the month.

PUBLIC COMMENT ON ITEMS NOT ON THE AGENDABill Osmunson, DDS MPH – 25977 Canyon Creek, Wilsonville, OR

Dr. Osmunson came before the Board to express his concern regarding fluoridated water. As a dentist, Dr. Osmunson said he is advising his patients not to drink TVWD water. He held up two enlarged photos of babies and a homemade graph. He expressed concern with nursing mothers drinking fluoride water and breast feeding their babies.

Commissioner Doane explained that he had been reading the book by Dr. Connett, “Fluoride, A Statement of Concern” that had been given to the Board a few months earlier. He asked Dr. Osmunson to help him to determine references to the many studies listed in the book. He also asked Dr. Osmunson for references to the graphs that he had presented. He clarified by asking Dr. Osmunson where he should look for the references so that he could better understand the book.

Commissioner Burke added that the information presented by Dr. Osmunson provokes an emotional response and does not provide any pertinent information. He indicated that if Dr. Osmunson, as an opponent of fluoride, were to present the information to the public, the pro fluoride folks would not find the information useful. Commissioner Burke suggested that Dr. Osmunson strip his information of emotion and present the information in layman’s terms so that anyone would be able to understand his message.

Commissioner McWilliams asked Dr. Osmunson why he continued to testify at Board meetings, when the correct thing to do is confer with the experts. If there is a bone to pick with the experts, then Dr. Osmunson should be presenting the information to them.

Dr. Osmunson indicated that TVWD is adding a drug to the water, and added that TVWD is relying on an industry that is making a profit.

President Schmidt explained that the decision to fluoridate or not is up the public. Commissioner Burke pointed out that the Board has made it clear that in order to change fluoridation an initiative would need to be presented on a ballot for a vote of the ratepayers.

Charlie White – 11965 NW Kearney St, Portland, OR

Mrs. White came before the Board to express her concern with fluoride and her concerns with the effects on the thyroid system. She explained how she believed the thyroid system works and how fluoride affects the gland negatively.

President Schmidt removed item 5.2 from the consent agenda for further discussion.

It was moved by Commissioner Burke and seconded by Commissioner Doane to approve consent agenda item 5.1, Regular Meeting minutes of November 16, 2011. The motion carried.

COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR) FOR THE YEAR ENDED JUNE 30, 2011

Paul Matthews, Chief Financial Officer, introduced Julie Desimone, CPA & Partner with the auditing firm of Moss Adams LLP.

Ms. Desimone provided the highlights of the audit report. The District should receive a “clean” audit after all of the final interviews have take place. She indicated that TVWD does a very good job in meeting all financial requirements.

In closing, she explained that TVWD had once again earned the Award of Excellence in Financial Reporting for the previous year’s CAFR, as presented earlier in the meeting.

It was moved by Commissioner McWilliams and seconded by Commissioner Duggan to accept the CAFR for the year ended June 30, 2011, and accept the GFOA Award of Excellence in Financial Reporting for the previous year’s CAFR.

MOBILE ELECTRONIC DEVICES POLICY

The purpose of this policy is to define the support, usage, and responsibilities for communication devices used for District business and to comply with the Oregon Ethics, Public Records, and Wage and Hour Laws. This policy allows an employee, whose position requires the use of a mobile communication device, the choice of a District issued device or for the employee to receive a stipend for the business use of his/her personal device. The policy is written so that an employee does not need to carry two separate phones. The policy makes clear that the manager determines the business need as well as criteria for eligibility.

It was moved by Commissioner Doane and seconded by Commissioner Burke to adopt the Mobile Electronic Devices Policy. The motion carried.
