WWSS Commission Board Meeting

September 5, 2019

Heighten your awareness, especially around schools

• Watch for children on and near the road in the morning and after school hours

• Reduce any distractions inside your car:
  • Put down your phone
  • Don’t talk or text while driving
Slowing down provides more reaction time and can save lives

A pedestrian’s chance of survival changes with the speed of impact:

- 50% if hit at 30 miles per hour
- 90% if hit at 20 miles per hour

Stop for school busses when red lights are flashing
