**GENERAL MANAGER'S REPORT**

**To:** WWSS Board of Commissioners  
**From:** David Kraska, P.E., WWSS General Manager  
**Date:** May 5, 2022  
**Subject:** Willamette Water Supply System General Manager's Report

---

This report provides an overview of some of the current Willamette Water Supply System (WWSS) work efforts under the direction of this Commission, beginning with a Safety Minute presentation.

- 1. Permitting and Communications Updates** – The Willamette Water Supply Program (WWSP) permitting efforts remain very active. Attached to this General Manager's Report is a tabulation of the permits and approvals recently granted, and the status of those currently in process.

Permitting highlights:

- WWSP received permits for the Reservoir (RES\_1.0) and Pipeline Main (PLM)\_5.3 projects including the 1200-C from the Department of Environmental Quality (DEQ), and the utility right-of-way and grading permits from Washington County.
- Bonneville Power Administration issued Land Use Agreements for the PLM\_4.2, Metzger Pipeline East (MPE)\_1.3, and Pipeline West (PLW)\_2.2 projects.

Communications highlights:

- The WWSP communications team hosted an in-person meeting for Riggs Road neighbors in rural Washington County regarding the Scholls Area Pipeline Project (PLM\_5.3). Members of the Hoffman-Fowler construction team also attended to share the construction schedule and how the team will work to limit impacts such as noise, dust and traffic.
- The WWSP sent letters this month to neighbors who are adjacent to the portion of the Cornelius Pass Pipeline Project (PLW\_2.1) that is within the old ODOT rail corridor. The letters advise of the opportunity to license WWSS property that is adjacent to their homes but will not be needed for construction or long-term maintenance of the WWSS pipeline. Over the years, some of these property owners have landscaped and placed personal items like play structures on this property. These license agreements provide a means of protecting the WWSS' interests as the property owner and maintaining good relations with the neighbors that will be directly impacted by our construction operations. Neighbors that opt to not enter into an agreement were advised to remove their personal property by April 30. Pipeline construction will begin later this year.

- 2. Construction Status Updates** – Attached to this General Manager's Report is a tabulation of the projects in construction and their status. A few highlights include:
  - Continued MPE\_1.2 nighttime construction of 48-inch waterline in a congested work area with numerous utility crossings and challenging traffic control requirements between Hwy 217 and Hall Blvd.
  - Completed the 4<sup>th</sup> tunnel on MPE\_1.2 (out of 7 total tunnels) and began shaft construction for the 5<sup>th</sup> tunnel.
  - Issued Notice to Proceed for the WTP\_1.0 project. Contractor has begun earthwork and has mobilized temporary field trailers.
  - Issued Notice to Proceed for the RES\_1.0 / PLM\_5.3 project. Contractor mobilized temporary field trailers and began stripping topsoil and excavating weathered rock layers in preparation of rock blasting.
- 3. Steel Market Exposure Update** – The price of hot rolled band, the material used to fabricate WWSS transmission pipe, continues to fluctuate in 2022. Pricing peaked in September of 2021 and steadily declined through February 2022 to a fourteen-month low. Pricing has increased, approximately 48 percent, from the low; however, the rate of increase has slowed to single digit percentage increase. Current pricing is approximately 5 percent less than the fourteen-month average, 25 percent below the peak. Price volatility may impact production rates and lead times. Program staff are working with our construction contractors to mitigate possible delays to our construction projects. Staff are continuing to monitor the steel market and are not recommending a change in construction procurement plans and strategies at this time.
- 4. Quarterly Financial Report** – Task 4.d. of the Annual Work Plan requires the Managing Agency to prepare quarterly financial reports and provide them to the WWSS Board as part of the packet. Attached to this General Manager's report is the WWSS quarterly financial statement for the period ending March 31, 2022.
- 5. For Awareness, Board Minutes will be Posted on May 16** – To accommodate staff availability, the minutes from this Board meeting will be posted to the TVWD website on Monday, May 16.

## Safety Minute: Golf Injuries Prevention

May 5, 2022

1

## Golf Injuries Prevention

- Golf-related injuries often result from poor mechanics or overuse
- Lower back injuries are common
- Others include the elbow, wrist, hand, and shoulder

Avoid these by following a few golf injury prevention safety tips:

2

## Golf Injury Prevention - On the Course

- **Warm-up** – Take a light walk and stretch before playing. Pay close attention to the shoulders, back, and arms.

- **Choose proper footwear** – Wear golf shoes with short cleats. Long cleats dig into the sod and hold your feet planted as you swing, which may place more strain on your knees.

- **Stay hydrated** – Drink water before, during and after playing.

- **Sun Protection** – Avoid the sun's peak hours; during sunny weather wear light clothing, sunscreen, sunglasses and a hat.

3

## Golf Injury Prevention - Off the Course

- **Take lessons** – Especially at the beginning. You will learn proper techniques and will prevent possible injuries.

- **Strengthen your muscles** – Stronger muscles are also less likely to be injured. For best results, do strength training exercises year-round, and focus on muscle balance, especially around the shoulders.

- **Focus on flexibility** – Regular stretching can improve your range of motion and lead to a more fluid golf swing.

- **Build up your endurance** – Regular aerobic activity can give you staying power on the course.

**REGULAR SESSION – 12:00 PM****CALL TO ORDER**

Chair Judah called the regular Willamette Water Supply System (WWSS) Commission meeting to order at 12:01 p.m.

**ROLL CALL**

Ms. Rehms administered the roll call and noted attendance.

**EXECUTIVE SESSION ACTION**

Commissioners noted they met in executive session to discuss progress on a current property acquisition for which the Commission has filed a condemnation complaint in Clackamas County Court.

Motion was made by San Soucie seconded by Duggan that the Commission proceed with the acquisition of the property interests located at tax lot 31W11C00603 in Wilsonville, Oregon, as set forth in the Commission Resolution Number WWSS-06-21, and that the Commission fully delegate to the General Manager the authority to acquire this property interest, including through reasonable settlement of the condemnation complaint. The motion passed unanimously with San Soucie, Judah, and Duggan voting in favor.

## 1. GENERAL MANAGER'S REPORT

Mr. Kraska presented a safety minute on spring cleaning (*presentation on file*).

The General Manager's report included Willamette Water Supply Program (WWSP) permitting and communications; design; construction; and steel market exposure updates.

In response to question staff said, the news report about WWSP efforts being affected by labor shortages is a misrepresentation. The program has experienced some difficulty hiring staff but has been able to solve and keep the program moving forward.

## 2. PUBLIC COMMENT

There were no public comments.

## 3. CONSENT AGENDA

- A. Approve the March 3, 2022, meeting minutes

Motion was made by San Soucie seconded by Judah to approve the Consent Agenda as presented. The motion passed unanimously with San Soucie, Duggan, and Judah voting in favor.

## 4. BUSINESS AGENDA

- A. Approve Permitting Services Contract Amendment – *Christina Walter*

Ms. Walter gave an overview of the 34th contract amendment for permitting services with David Evans and Associates, Inc. (DEA). She reviewed the new activities anticipated for 2022, the original procurement process, and major components of the proposed contract. She reported that the proposed budget for April 2022 – April 2023 is \$1,742,503.78. This amount includes approximately \$1,000,000 in unspent budget and \$742,503.78 additional budget to be authorized by this amendment. The contract value was anticipated in Baseline 7.0 budget, and it is approximately twenty percent less than last year. The annual budget for permitting support services is on track to continue decreasing as design phase wraps up and services shift to permit compliance monitoring. (*presentation on file*)

In response to question, staff confirmed that the current contract value is on par with the anticipated costs when the contract was developed in 2015 as the WWSP mobilized.

Motion was made by Duggan, seconded by San Soucie, to approve Amendment 34 to Contract 2016-320, with David Evans and Associates, Inc., for \$742,503.78 to provide regulatory permitting services and related

consulting services for the Willamette Water Supply Program. The motion passed unanimously with San Soucie, Duggan, and Judah voting in favor.

B. Adopt by Motion a Tree Donation Acknowledgement Form – *Christina Walter*

Ms. Walter presented an overview of the proposed Tree Donation Acknowledgement Form. She said as part of the construction of the WWSS, trees from various locations along the pipeline alignment and at the facilities will be removed and require proper disposal. Some of these trees may be of value to other parties and, specifically, may be useful as large woody debris for environmental restoration projects. Legal counsel has prepared the Tree Donation Acknowledgement Form to establish the terms and conditions required of an outside party to enter into a donation arrangement. The terms are intended to reduce WWSS liability and protect the interests of the WWSS Commission when coordinating and executing these donations. Ms. Walter explained that Section 5.4.19 of the WWSS IGA establishes the WWSS Commission's authority to dispose of personal property, which includes trees. The Management Authority Matrix also requires WWSS Commission approval of any intergovernmental agreement. WWSS staff are requesting approval to dispose of the trees by donation, and to authorize the General Manager to enter into agreements for that purpose, including with other governmental entities. *(presentation on file)*

In response to question, staff explained that the donated trees do not generate the types of credits that WWSP needs to fulfil its thermal Trading Plan commitment. Those thermal credits are generated by planting living trees and other new vegetation that will grow and shade waterways to reduce thermal loading and lower water temperatures.

Motion was made by Duggan, seconded by San Soucie, to authorize the General Manager to donate to outside parties any trees that would otherwise be disposed of, and that the Commission authorizes the General Manager to enter into agreements for that purpose, including with other governmental entities, using the presented Tree Donation Acknowledgement Form, or any similar agreement approved by legal counsel for this purpose. The motion passed unanimously with San Soucie, Duggan, and Judah voting in favor.

## **5. INFORMATION ITEMS**

A. Planned May Business Agenda Items – *Joelle Bennett*

Ms. Bennett presented information on business agenda items planned for the May 5, 2022, WWSS Commission Regular Board meeting.

Staff anticipates recommending approval of:

1. Sherwood Emergency Intertie Intergovernmental Agreement (IGA)
2. MPE\_1.3 Contract for Construction

B. The next Board meeting is scheduled on May 5, 2022, via Microsoft Teams.

## **6. COMMUNICATIONS AND NON-AGENDA ITEMS**

A. None scheduled.

## **ADJOURNMENT**

**STAFF REPORT**

**To:** WWSS Board of Commissioners

**From:** David Kraska, P.E., WWSS General Manager

**Date:** May 5, 2022

**Subject:** Intergovernmental Agreement between Willamette Water Supply System Commission and City of Sherwood for System Interconnection

---

**Requested Board Action:**

Consider adopting a resolution approving an Intergovernmental Agreement between Willamette Water Supply System Commission and the City of Sherwood for System Interconnection to provide long-term capability for emergency or supplemental water supply between the two systems.

**Key Concepts:**

- Willamette Water Supply System (WWSS) is building the WTP\_1.0 project within the City of Sherwood
- City of Sherwood operates its water system within the city limits and adjacent to the WTP\_1.0 site
- An emergency intertie between the two systems is a benefit to each party and contributes to greater regional water resilience
- This intergovernmental agreement (IGA) approves the construction and future operation of an emergency intertie, future operational details will be memorialized in a separate, but required, operations plan

**Background:**

Willamette Water Supply System's new water treatment plan (WTP\_1.0) will be located in the City of Sherwood and adjacent to the city's water system. The intertie fulfills requirements established in the land use permit approval process and separately in easement negotiations with the city, which wholly owns and operates its water system. As such, the two parties desire to construct an emergency intertie between the two systems as described in the attached agreement.

The intertie will be capable of conveying up to 5 million gallons per day of water from WTP\_1.0 into Sherwood's water system and vice versa. Establishing such a connection promotes the cost-effective provision of safe and reliable water services to present and future customers. The proposed IGA defines that operating the intertie to access supplemental water supply will occur only when the requesting party is experiencing an emergency. The providing party will have full control in determining how much supply it is able to provide, dependent upon the current situation and demands.

Additionally, the proposed IGA requires that an operating plan be developed in alignment with the terms in the IGA, to detail specific coordination and operations and maintenance responsibilities. WWSS will take the lead role in drafting this plan.

**Budget Impact:**

As specified in the IGA, WWSS is responsible for the design and construction costs of the interconnection, as well as half of the operations cost. Each party will be responsible for the cost of any water received. The design and

IGA between WWSS Commission and City of Sherwood for System Interconnection

construction costs are included in the WTP\_1.0 project budget. The WWSS share of the operations and maintenance cost for the interconnection, as well as maintenance-related water consumption, will be included in the WWSS operating budget in future years.

3.3.1.2.3 Isolation valve, combination flow and pressure regulating valve, and combination strainer and flowmeter shall be provided in below-grade pre-cast concrete vault.

3.3.1.2.4 Isolation valve will be closed under normal conditions and will be manually opened when needed to provide Supplemental Supply or for testing.

3.3.1.2.5 Vault shall have a sump and pumped discharge to the WTP\_1.0 stormwater system.

3.3.1.2.6 Vault shall have traffic rated, lockable hatch and internal ladder.

3.3.1.3 Water flow from the City System to the WTP\_1.0 Clearwell shall have the following features:

3.3.1.3.1 City Supplemental Supply of up to 5 mgd to WTP\_1.0.

3.3.1.3.2 City shall maintain minimum pressure of 50 psi at the Interconnection to its 16" main in Ice Age Road.

3.3.1.3.3 Prevention of backflow from WTP\_1.0 to the City of Sherwood connection shall be provided by reduced-pressure backflow prevention assemblies installed in lockable above-ground boxes with heat tracing.

3.3.1.3.4 Isolation valve, flow regulating valve and combination strainer and flowmeter shall be provided in below-grade pre-cast concrete vault.

3.3.1.3.5 Isolation valve will be closed under normal conditions and will be manually opened when needed to provide Supplemental Supply or for testing.

- 3.3.1.3.6 Vault shall have a sump and pumped discharge to the WTP\_1.0 stormwater system.
- 3.3.1.3.7 Vault shall have traffic rated, lockable hatch and internal ladder.

3.3.2 The Interconnection shall include signals to the WTP\_1.0 Supervisory Control and Data Acquisition (SCADA) system that will allow the WTP\_1.0 SCADA system and City to monitor the flow of water between the water systems.

3.3.2.1 All flowmeter and pressure signals shall be transmitted to the WTP\_1.0 SCADA system for monitoring, recording, and communication to the City.

3.3.2.2 An additional Proxy PLC will be provided in Network Room panel SPP8 to exchange data to the City, which will be independent from the WWSS Commission Proxy PLC.

3.3.2.3 The City will set up a secure network link to the WTP\_1.0 non-Partner Proxy PLC with certificates that meet the WWSP “zero trust environment” (like the method of connection used by the City of Sherwood for primary water source at the Willamette River Water Treatment Plant).

### 3.2 **Interconnection Design and Construction.**

3.2.1 WWSS Commission shall, at its sole cost and discretion, complete the design for the Interconnection in a manner sufficient to supply Supplemental Supply consistent with the terms of this Agreement.

3.2.2 WWSS Commission shall, at its sole cost and discretion, construct the Interconnection consistent with the design of the Interconnection as set forth in Section 3.2.1. and shall obtain all real estate interests and permitting necessary for the construction.

3.3 **Ownership.** WWSS Commission shall be the sole owner of the Interconnection assets.

### 3.4 **Interconnection Operation and Maintenance.**

3.4.1. WWSS Commission, through its Managing Agency, shall provide all services and equipment necessary to maintain the safe and reliable operation of the Interconnection (“O&M”) while this Agreement is in effect.

3.4.2. Each Party agrees to pay one-half of all O&M costs. WWSS Commission will track O&M costs using prudent utility practices. WWSS Commission will invoice City for the City’s portion of O&M costs on a quarterly basis.

- 3.5 **Supplemental Supply.** The Interconnection shall be designed, constructed, maintained, and operated in a manner capable of providing Supplemental Supply from each Party's system to the other Party's system.
- 3.5.1. Supplemental Supply shall be available and operable on demand at any time with Notice from the requesting Party as is reasonable under the circumstances to the supplying Party.
- 3.5.2. The Party providing Supplemental Supply shall not be liable for non-delivery of water if water is unavailable because of the supplying Party's demands or system limitations. The Parties will develop a methodology to determine available capacity as part of the Operations Plan in Section 4.1.
- 3.6 **Use of Interconnection.** At all times, use of the Interconnection shall occur only when the requesting Party is experiencing an Emergency, unless both Parties, each in their sole discretion, agree to use the Interconnection for non-Emergency purposes.

#### **Article IV. Operations Plan, Supplemental Supply Metering and Rates.**

- 4.1 **Operations Plan.** Upon WWSS Commission's completion of the construction of the Interconnection, WWSS Commission shall develop an Operations Plan that, at a minimum, addresses: 1) testing and flushing of the Interconnection; 2) water quality for water supplied through the Interconnection; (3) testing of the meter; and (4) the method for a Party to determine the maximum capacity of Supplemental Supply it can make available to the other Party. The Operations Plan will also identify, to the extent practicable, a methodology for alternating the City System and the WTP\_1.0 as the source for water required to conduct any testing, flushing, or inspection activities.
- 4.2 **Access and Inspection.** WWSS Commission shall provide City with access to the Interconnection facilities for the purpose of inspecting and observing tests or to perform other obligations required under this Agreement, at any time with reasonable notice.
- 4.3 **Meter Reading.** Real-time SCADA information will be available to both Parties.
- 4.4 **Rates and Payment.** Water provided through the Interconnection shall be billed by the providing Party to the receiving Party as follows:
- 4.4.1. For Supplemental Supply, the Party providing water shall invoice the

receiving Party within 60 days of the end of the event requiring the Supplemental Supply. Notwithstanding the foregoing, when the Parties expect to provide Supplemental Supply for any period exceeding one month, the Parties shall determine the frequency of invoices for the expected period.

- 4.4.2. For non-Supplemental Supply, such as water required for testing, flushing, or inspection activities, the Parties shall each provide water at no cost as set forth in the Operations Plan.
- 4.4.3 All amounts invoices shall be based on the volume of water that passed through the Interconnection times the providing Party's then-existing cost of wholesale water.
- 4.4.2 In addition, any direct costs for items which are directly attributable to the Emergency, such as the cost of electricity, shall also be billed to the Party requesting water.

#### **Article V. Miscellaneous.**

- 5.1 **WWSS Commission Water Distribution.** Nothing in this Agreement shall be deemed to be an agreement by the City that the WWSS Commission can provide water service to any customer connected to the City's water system, located within the City's territorial boundary, as that boundary may change from time to time, or located within the City's urban planning area (i.e. territory that is either within the City's urban growth boundary or within the City's urban reserves), as that area may change from time to time. WWSS Commission agrees to provide no such service without the express, written consent of the City.
- 5.2 **No Third-Party Beneficiaries.** The Parties agree that this Agreement is for the sole benefit of WWSS Commission and the City and that there are no third-party beneficiaries to this Agreement. Each Party is providing the Interconnection as an accommodation to the other, regardless of any end users that receive water. This Agreement shall not be deemed to have conferred any rights, express or implied, upon any person or entity not a party to this Agreement.
- 5.3 **Indemnity.** To the full extent permitted by law, and subject to the limits of the Oregon Tort Claims Act, each Party (Indemnifying Party) agrees to indemnify and hold harmless the other Party (Indemnified Party), its governing body, members, officers, agents, and employees from any and all liability, claims, demands, damages (including attorney fees and costs), actions, or proceedings of whatever kind or nature arising out the acts or failure to act under this Agreement by the Indemnifying Party, its elected

officials, officers, agents, employees, or anyone over whom the Indemnifying Party has direction or control, except to the extent of the Indemnified Party's negligence, if any.

- 5.4 Insurance.** Independent of the indemnity obligation in Section 5.3, the Parties shall each maintain not less than \$5,000,000 in liability, casualty, and property insurance coverages and appropriate Workers Compensation coverage.
- 5.5 Detrimental Fiscal and Operational Impacts.** Each Party agrees to cooperate to prevent or minimize fiscal and operational impacts to the other Party that result from this Agreement and to negotiate reasonable modifications to this Agreement as necessary to prevent detrimental impacts to either Party's system resulting from this Agreement.
- 5.6 Dispute Resolution.** This Agreement obligates the Parties to cooperate for the mutual benefit of both Parties to deliver water to their respective water systems for Emergency purposes. This Dispute Resolution process is provided to encourage informal resolution through negotiation among the Parties' staff, executives, or elected officials before resorting to a formal process using mediation, arbitration, or litigation.
- 5.6.1 **Default and Cure.** If a Party defaults in performance of this Agreement, then upon 20 days written Notice, the defaulting Party shall cure or undertake diligent steps to cure within a reasonable time. If the default cannot be cured within the 20-day period, the Parties must agree to a timeline for cure. If the dispute is not resolved within 30 days, it shall be referred to mediation if requested by either Party. Notwithstanding the foregoing, any failure to pay must be cured by payment in full within 20 days of Notice.
- 5.6.2 **Mediation.** If the default is not cured pursuant to Section 5.6.1, a Party desiring mediation shall provide the other Party with a written notice setting forth the nature of the dispute. The Parties will cooperate in good faith to select a mediator within 14 days of either Party requesting mediation, and the Parties may adopt any procedural format that seems appropriate for the particular dispute. Mediation should be scheduled within 14 days of selection of the mediator, or as soon as possible, based on availability. If the mediation fails, then a Party may seek remedies pursuant to Section 5.6.3.
- 5.6.3 **Remedies.** Upon the failure of any mediation pursuant to Section 5.6.2., either Party may seek any remedy available to the Party. The

Parties agree that, because this Agreement concerns potable water system infrastructure, equitable remedies such as injunction or specific performance may be sought.

**5.7 Notice.** Any notice allowed or required under this Agreement (“Notice”) shall be in writing. Notice shall be deemed sufficient if hand delivered or deposited in the United States Mail, postage prepaid, addressed to the Parties as follows:

INSERT NOTICE CONTACTS

**5.8 Law and Venue.** This Agreement shall be governed by the laws of the state of Oregon, and any legal proceeding shall be brought in the Circuit Court of the State of Oregon for the County of Washington.

**5.9 Successors and Assigns/Non-Assignment.** This Agreement may not be assigned to another party without the express written consent of the non-assigning Party, which consent shall be in the non-assigning Party’s sole discretion.

**5.10 Amendment.** This Agreement may only be amended in writing signed by both Parties. The designated representatives of each Party may execute any amendment to this Agreement.

THE PARTIES EXECUTED this Agreement on the dates written below.

## 4.A. Requested Board Action

Consider adopting Resolution WWSS-04-22 approving an Intergovernmental Agreement between Willamette Water Supply System Commission and City of Sherwood for System Interconnection to provide long-term capability for emergency or supplemental water supply between the two systems.

**STAFF REPORT**

**To:** WWSS Board of Commissioners  
**From:** Mike Britch, P.E., WWSP Engineering & Construction Manager  
**Date:** May 5, 2022  
**Subject:** Approval of Contract with Emery & Sons Construction Group, LLC for MPE\_1.3 Pipeline Construction for the Willamette Water Supply Program

---

**Requested Board Action:**

Approve Contract 2022-055 for \$49,215,771 with Emery & Sons Construction Group, LLC for MPE\_1.3 Pipeline Construction for the Willamette Water Supply Program.

**Key Concepts:**

- A low bid selection process was used for this procurement and the Invitation to Bid (ITB) was published on February 23, 2022
- No firm elected to participate in a proprietary meeting to ask questions about the project and three of the 10 prequalified pipeline construction firms submitted forms indicating their intent to respond to the ITB. Two bids were received and opened publicly on April 5, 2022. Both the submitted bids met the minimum qualifications requirements for a responsive and responsible bidder
- Emery & Sons was identified as the low responsive bidder
- Limited Notice to Proceed for the construction services is planned upon approval and execution of the contract.
- Approval of the proposed contract and recommended contingency budget, the total of which is greater than the current baseline budget 7.0, would require additional funds from Tualatin Valley Water District (TVWD).

**Background:**

The MPE\_1.3 project includes complete installation of approximately 17,700 linear feet of 48-inch welded steel water pipeline on SW Scholls Ferry Road from SW Roy Rogers Road to Greenway Park just west of SW Nimbus Avenue. The MPE\_1.3 project includes extensive traffic management, including lane closures, nighttime work, and major intersection crossings.

**Budget Impact:**

The contract amount of \$49,215,771 with a recommended project contingency of ten percent added is approximately \$8,800,594 more than the estimated value in Baseline 7.0 (prepared Q4 2021). Consequently, additional budget for the contract and contingency is requested. Funds for this additional budget will be provided by TVWD because, as an Ancillary Project under the WWSS Intergovernmental Agreement, MPE\_1.3 is not eligible to use WWSS Management Reserve funds.

The table below provides information on the existing and proposed baseline budgets, the contract price, and the recommended contingency.

**CONTRACT AGREEMENT  
 ON THE BASIS OF A STIPULATED PRICE  
 For Contract # 2022-055**

**THIS CONTRACT** is effective as of the 6th day of May in the year 2022 by and between Willamette Water Supply System Commission, an intergovernmental entity formed under ORS Chapter 190 (“Commission” and “Owner”), and Emery & Sons Construction Group, LLC. (“Contractor”), whose principal place of business is located at 3841 Fairview Industrial Dr. SE Ste. 150, Salem OR, 97302. Each one of the above may be individually referred to as a “party” and collectively referred to as the “parties.”

Owner and Contractor, in consideration of the mutual general conditions hereinafter set forth, agree as follows:

**SECTION 1 - WORK**

---

The Work includes all labor, equipment, material, testing, inspection and appurtenant components in accordance with, or reasonably inferable from, the Contract Documents ("Work").

Contractor shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows:

The Work of this Contract includes but is not limited to furnishing materials, labor, and equipment required for the construction of a new waterline consisting of approximately seventeen thousand six hundred and forty-four (17,644) linear feet of 48-inch welded steel water pipeline and pipeline accessories within street/road right of way. The Contractor is required to furnish all other materials, labor, and equipment including valves, vaults, and appurtenances including electrical and instrumentation controls, and to complete the work as defined in these Contract Documents.

**SECTION 2 - OWNER REPRESENTATIVE**

---

**2.01** Mr. Mike Britch has been designated as Owner’s Representative and assumes all duties and responsibilities and has the right and authority assigned to Owner’s Representative in the Contract Documents in connection with completion of the work in accordance with the Contract Documents. Owner’s Representative shall be responsible for coordinating and obtaining appropriate Owner approvals for any requested contractual changes that affect cost, schedule, technical, or any other requirements of this contract.

Mr. Britch may be contacted by phone at 503-941-4565 or by email at [mike.britch@tvwd.org](mailto:mike.britch@tvwd.org).

**SECTION 3 - CONTRACT TIMES/MILESTONE**

---

**3.01** The Work shall not commence prior to the date specified in the Limited Notice to Proceed and shall be completed in accordance with the following schedule, or any extension thereof granted

by Owner:

<b>Construction Milestones</b>	<b>Date</b>
Limited Notice to Proceed	05/12/2022
Notice to Proceed	08/08/2022
Milestone 1 - Substantial Completion of the Work	12/31/2024
Milestone 2 - Final Completion of the Work	03/26/2025

The Project schedule shall be developed and maintained by Contractor in accordance with the General Requirements, Specification 01 31 30 and Specification 01 32 16. The Contractor acknowledges that it has examined the timelines, Milestones and Completion Dates established in this Contract and that the time allotted for performance of each portion of the Work is adequate. The services of the Contractor and its Subcontractors shall be performed diligently and uninterruptedly to ensure the timely completion of the Milestones. Contractor’s failure to achieve the Milestones and Completion Dates, as set forth above, may constitute a material breach of this Contract and Owner reserves the right to exercise all of their rights and remedies, including the pursuit of agreed upon liquidated damages.

**3.02** *Liquidated Damages.* The parties recognize that time is of the essence for the completion of all Work under this Contract and that Owner will suffer financial loss if the Work is not completed within the Milestones and Contract Times specified in Section 3.01 above, plus any extensions thereof approved in accordance with Article 12 of the General Conditions. The parties also recognize that there are delays, expenses, and difficulties involved in proving the actual loss suffered by Owner if the Work is not completed on time. Accordingly, instead of requiring any such proof, Owner and Contractor agree that as reasonable and appropriate liquidated damages for delay (but not as a penalty), Contractor agrees to pay Owner in accordance with the following:

<b>Construction Milestones</b>	<b>Liquidated Damages</b>
Substantial Completion	Five Thousand Dollars (\$5,000) for each calendar day that expires after the time specified in Section 3.01 of the Contract (or any extension thereof granted by Owner) for Substantial Completion until the Work is substantially complete as defined by the Contract Documents and approved by Owner.
Final Completion	After Substantial Completion, if Contractor neglects, refuses, or fails to complete the remaining Work within the time specified in Section 3.01 of the Contract, for completion and readiness for final payment (or any extension thereof granted by Owner), Contractor shall pay Owner Three Thousand Five Hundred Dollars (\$3,500) for each calendar day that expires after the times specified in Section 3.01 for completion and readiness for final payment.

**3.03** Owner shall recover liquidated damages by deducting the amount thereof from any monies due or payable to Contractor. In the event the remaining balance due the Contractor is insufficient to cover the full amount of assessed liquidated damages, Contractor, or its surety, if applicable, shall pay the amount due and Owner shall be entitled to any and all rights and remedies available in law or equity to recover the same.

#### **SECTION 4 - CONTRACT PRICE**

---

**4.01** Owner shall pay Contractor for Work completed in accordance with the Contract Documents pursuant to the Schedule of Values set forth in Section 4.03. The Contract Price shall not exceed Forty-Nine Million Two Hundred Fifteen Thousand Seven Hundred Seventy-One Dollars and Zero Cents. (\$49,215,771.00), unless authorized by Owner in accordance with Article 12 of the General Conditions. Priced items, as identified in the Schedule of Values, are firm and not subject to escalation, absent a Change Order.

**4.02** In accordance with ORS 279A.120, out-of-state Contractors are required to report to the Department of Revenue the Contract Price, terms of payment, length of Contract, and other information Department of Revenue may require. Owner shall verify Contractor has satisfied this requirement prior to issuing final payment.

- B. After receipt of written Notice as required by Paragraph 4.03.A, Owner will promptly review the pertinent condition, determine the necessity of obtaining additional exploration or tests with respect thereto, and advise Contractor in writing of Owner's findings and conclusions.

*C. Possible Price and Times Adjustments:*

1. The Contract Price or the Contract Times, or both, will be equitably adjusted to the extent that the existence of such differing subsurface or physical condition causes an increase or decrease in Contractor's cost of, or time required for, performance of the Work; subject, however, to the following:
  - a. Such condition must meet any one or more of the categories described in Paragraph 4.03.A; and
  - b. With respect to Work that is paid for on a unit price basis, any adjustment in Contract Price will be subject to the provisions of Paragraphs 8.04 and 11.03.

- c. Contractor failed to give the written Notice as required by Paragraph 4.03.A and 10.05

any Work in connection therewith (except in an emergency as required by Paragraph 6.17), identify the owner of such Underground Facility and give written Notice to that owner and to Owner. Owner will promptly review the Underground Facility and determine the extent, if any, to which a change is required in the Contract Documents to reflect and document the consequences of the existence or location of the Underground Facility. During such time, Contractor shall be responsible for the safety and protection of such Underground Facility.

2. If Owner conclude that a change in the Contract Documents is required, a Work Change Directive or a Change Order will be issued to reflect and document such consequences. An equitable adjustment shall be made in the Contract Price or Contract Times, or both, to the extent that they are attributable to the existence or location of any Underground Facility that was not shown or indicated or not shown or indicated with reasonable accuracy in the Contract Documents and that Contractor did not know of and could not reasonably have been expected to be aware of or to have anticipated. If Owner and Contractor are unable to agree on entitlement to or on the amount or extent, if any, of any such adjustment in Contract Price or Contract Times, Owner or Contractor may make a Claim therefor as provided in Paragraph 10.05.

If Contractor encounters a Hazardous Environmental Condition or if Contractor or anyone for whom Contractor is responsible creates a Hazardous Environmental Condition, Contractor shall immediately: (i) secure or otherwise isolate such condition; (ii) stop all Work in connection with such condition and in any area affected thereby (except in an emergency as required by Paragraph 6.17); and (iii) notify Owner's Representative (and promptly thereafter confirm such notice in writing). Owner shall promptly consult with Engineer concerning the necessity for Owner to retain a qualified expert to evaluate such condition or take corrective action, if any. Promptly after consulting with Engineer, Owner shall take such actions as are necessary to obtain required permits and provide Contractor the written Notice.
- D. Contractor shall not be required to resume Work in connection with such condition or in any affected area until after Owner have obtained any required permits related thereto and delivered written Notice to Contractor: (i) specifying that such condition and any affected area is or has been rendered safe for the resumption of Work; or (ii) specifying any special conditions under which such Work may be resumed safely. If Owner and Contractor cannot agree as to entitlement to or on the amount or extent, if any, of any adjustment in Contract Price or Contract Times, or both, as a result of such Work stoppage or such special conditions under which Work is agreed to be resumed by Contractor, either party may make a Claim therefore as provided in Paragraph 10.05.

Contractor's indemnity, as to use, applies only when infringement occurs from the normal use for which such treatment process, material, and equipment were designed. Owner may, at its option, be represented at any such proceeding.
1. If such manufacture, sale, or use is held in any such proceeding to constitute an infringement and is enjoined, Contractor, at its expense, shall either procure for Owner the right to manufacture, sell, and use such treatment process, material and equipment; or pay the costs for damages, fees, or royalties.

- A. Neither Engineer's authority or responsibility under this Article 9 or under any other provision of the Contract Documents nor any decision made by Engineer in good faith either to exercise or not exercise such authority or responsibility or the undertaking, exercise, or performance of any authority or responsibility by Engineer shall create, impose, or give rise to any duty in contract, tort, or otherwise owed by Engineer to Contractor, any Subcontractor, any Supplier, any other individual or entity, or to any surety for or employee or agent of any of them.
- B. Engineer will not supervise, direct, control, or have authority over or be responsible for Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work. **ARTICLE 10 – CHANGES IN THE WORK; CLAIMS**

10.01 *Authorized Changes in the Work*

- A. Without invalidating the Contract and without notice to any surety, Owner may, at any time or from time to time, order additions, deletions, or revisions in the Work by a Change Order, or a Work Change Directive. Upon receipt of any such document, Contractor shall promptly proceed with the Work involved which will be performed

under the applicable conditions of the Contract Documents (except as otherwise specifically provided).

- B. Owner may, in anticipation of possibly ordering an addition, deletion, or revision to the Work, issue a request for quote for Contractor to prepare a proposal of additional or deductive cost and/or times for Owner contemplated changes in the Work. Owner is not responsible for any cost incurred by Contractor associated with the preparation of the proposal. Contractor's written proposal shall be transmitted to Owner's Representative promptly, but not later than fourteen (14) days after Contractor's receipt of Owner written request and shall remain a firm offer for a period not less than forty-five (45) days after receipt thereof. Contractor is not authorized to proceed on an Owner contemplated change in the Work prior to Contractor's receipt of an executed Change Order or Work Change Directive authorizing such change into the Work. Contractor proposals shall include, when applicable:
- C. If Owner and Contractor are unable to agree on entitlement to, or on the amount or extent, if any, of an adjustment in the Contract Price or Contract Times, or both, that should be allowed as a result of a Work Change Directive, a Claim may be made therefor as provided in Paragraph 10.05.

#### 10.02 *Unauthorized Changes in the Work*

- A. Contractor shall not be entitled to an increase in the Contract Price or an extension of the Contract Times with respect to any work performed that is not required by the Contract Documents as amended, modified, or supplemented as provided in Paragraph 3.04, except in the case of an emergency as provided in Paragraph 6.17 or in the case of uncovering Work as provided in Paragraph 13.04.

#### 10.03 *Execution of Change Orders*

- A. Owner and Contractor shall execute appropriate Change Orders covering:
  1. Changes in the Work which are: (i) ordered by Owner pursuant to Paragraphs 10.01.A and 10.01.B, (ii) required because of acceptance of defective Work under Paragraph 13.08.A or Owner's correction of defective Work under Paragraph 13.09, or (iii) agreed to by the parties;
  2. Changes in the Contract Price or Contract Times which are agreed to by the parties, including any undisputed sum or amount of time for Work actually performed in accordance with a Work Change Directive; and
  3. Changes in the Contract Price or Contract Times which embody the substance of any written decision rendered by Owner pursuant to Paragraph 10.05; provided that, in lieu of executing any such Change Order, an appeal may be taken from any such

decision in accordance with the provisions of the Contract Documents and applicable Laws and Regulations, but during any such appeal, Contractor shall carry on the Work and adhere to the Progress Schedule as provided in Paragraph 6.04.

- B. In signing a Change Order, Owner and Contractor acknowledge and agree that:
1. Contractor acknowledges and agrees on behalf of itself, all Subcontractors, and all Suppliers, that the stipulated adjustment includes adjustment for all work contained in the Change Order, plus all adjustment for the interruption of schedules, extended field overhead costs, delay, and all impact, ripple effect or cumulative impact on all other work under this Contract.
  2. The Change Order constitutes the full mutual accord and satisfaction for the change, and that the time and/or cost under the Change Order constitutes the total equitable adjustment owed to Contractor, all Subcontractors, and all Suppliers as a result of the change.
  3. Contractor, on behalf of itself, all Subcontractors, and all Suppliers, agrees to waive all rights, without exception or reservation of any kind whatsoever, to file any further Claim related to this Change Order. No further Claim or request for equitable adjustment of any type shall arise out of or as a result of this Change Order or the impact of this Change Order on the remainder of the Work under this Contract.
- C. All Change Orders shall contain the following terms:
1. The equitable adjustment (to the Contract Price and Contract Times) set forth in this Change Order comprises the total adjustment due the Contractor,
  2. All Subcontractors and all Suppliers costs for the Work or change defined in the Change Order, including impact on other work.

#### 10.04 *Notification to Surety*

- A. If the provisions of any bond require notice to be given to a surety of any change affecting the general scope of the Work or the provisions of the Contract Documents (including, but not limited to, Contract Price or Contract Times), the giving of any such notice will be Contractor's responsibility. The amount of each applicable bond will be adjusted to reflect the effect of any such change.

#### 10.05 *Claims*

- A. *Notice:* Written Notice stating the general nature of each Claim shall be delivered by the claimant the other party to the Contract promptly (but in no event later than seven (7) days) after the start of the event giving rise thereto or the Claim shall be forever barred,

- unless Owner allows additional time, in writing, for claimant to submit additional or more accurate data in support of such Claim, dispute, or other matter. The responsibility to substantiate a Claim shall rest with the party making the Claim. Within thirty (30) days of Notice of Claim, claimant shall provide the following: (i) a statement of the amount or extent of the Claim, dispute, or other matter, (ii) supporting data explaining the reason, amount, and/or extent of the Claim, dispute, or other matter and, (iii) a written statement that the adjustment claimed is the entire adjustment to which the claimant believes it is entitled as a result of said event. Claimant's failure to submit such supporting data shall be a waiver of any and all Claims related to the data. A Claim for an adjustment in Contract Price shall be prepared in accordance with the provisions of Paragraph 12.01.A. A Claim for an adjustment in Contract Times shall be prepared in accordance with the provisions of Paragraph 12.02.B.
- B. Owner will review each Claim and, within thirty (30) days after receipt of the last submittal of the claimant or the last submittal of the opposing party, if any, take one of the following actions in writing:
1. Deny the Claim in whole or in part;
  2. Approve the Claim; or
  3. Notify the party that Owner is unable to resolve the Claim if, in the Owner's sole discretion, it would be inappropriate for the Owner to do so. For purposes of further resolution of the Claim, such notice shall be deemed a denial.
- C. In the event that Owner does not take action on a Claim within said thirty (30) days, the Claim shall be deemed denied.
- D. Owner written action under Paragraph 10.05.B or denial pursuant to Paragraphs 10.05.B.3 or 10.05.C will be final and binding upon Owner and Contractor, unless Owner or Contractor invoke the dispute resolution procedure set forth in Article 16 within thirty (30) days of such action or denial.
- E. No Claim for an adjustment in Contract Price or Contract Times will be valid if not submitted in accordance with this Paragraph 10.05.

## **ARTICLE 11 – COST OF THE WORK; ALLOWANCES; UNIT PRICE WORK**

### *11.01 Cost of the Work*

- A. *Costs Included:* The term Cost of the Work means the sum of all costs, except those excluded in Paragraph 11.01.B, necessarily incurred and paid by Contractor in the proper performance of the Work. When the value of any Work covered by a Change Order or when a Claim for an adjustment in Contract Price is determined on the basis of Cost of

the Work, the costs to be reimbursed to Contractor will be only those additional or incremental costs required because of the change in the Work or because of the event giving rise to the Claim. Except as otherwise may be agreed to in writing by Owner, such costs shall be in amounts no higher than those prevailing in the locality of the Project, shall not include any of the costs itemized in Paragraph 11.01.B, and shall include any and all the following items:

1. Payroll costs for employees in the direct employ of Contractor in the performance of the Work under schedules of job classifications agreed upon by Owner and Contractor. Such employees shall include, without limitation, superintendents, foremen, and other personnel employed full time on the Work. Payroll costs for employees not employed full time on the Work shall be apportioned on the basis of their time spent on the Work. Payroll costs shall include, but not be limited to, salaries and wages plus the cost of fringe benefits, which shall include social security contributions, unemployment, excise, and payroll taxes, workers' compensation, health and retirement benefits. The expenses of performing Work outside of regular working hours, on Saturday or Sunday, shall be included in the above to the extent authorized by Owner.
2. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and suitable storage (both onsite and off-site) thereof, and Suppliers' field services required in connection therewith. All cash discounts shall accrue to Contractor unless Owner deposit funds with Contractor with which to make payments, in which case the cash discounts shall accrue to Owner. All trade discounts, rebates and refunds and returns from sale of surplus materials and equipment shall accrue to Owner, and Contractor shall make provisions so that they may be obtained.
3. Payments made by Contractor to Subcontractors for Work performed by Subcontractors. If required by Owner, Contractor shall obtain competitive bids from subcontractors acceptable to Owner and Contractor and shall deliver such bids to Owner, who will then determine which bids, if any, will be acceptable. If any subcontract provides that the Subcontractor is to be paid on the basis of Cost of the Work plus a fee, the Subcontractor's Cost of the Work and fee shall be determined in the same manner as Contractors Cost of the Work and fee as provided in this Paragraph 11.01.
4. Costs of special consultants (including but not limited to engineers, architects, testing laboratories and surveyors) employed for services specifically related to the Work with approval by Owner.
5. Supplemental costs including the following:

- a. The proportion of necessary transportation, travel, and subsistence expenses of Contractor's employees incurred in discharge of duties connected with the Work.
- b. Cost, including transportation and maintenance, of all materials, water, supplies, equipment, machinery, appliances, office, and temporary facilities at the Site, and hand tools not owned by the workers, which are consumed in the performance of the Work, and cost, less market value, of such items used but not consumed which remain the property of Contractor.
- c. Equipment costs shall be calculated using the rental rate listed for such equipment in the Equipment Watch Rental Rate Blue Book for Owned Equipment. Such rental rate will be used to compute payments for equipment whether the equipment is under the Contractor's control through direct ownership, leasing, renting, or another method of acquisition. The rental rate to be applied for use of each item of equipment will be the rate resulting in the least total cost to Owner for the total period of use, and in general shall be the monthly rental rate divided by 176 times the actual hours used. If it is deemed necessary by the Contractor to use equipment not listed in the publication specified herein, an equitable rental rate for the equipment will be established by Owner. Contractor may furnish cost data which may assist Owner in the establishment of the rental rate. Individual pieces of equipment or tools having a replacement value of \$500 or less, whether or not consumed by use, will be considered to be small tools and no payment will be made therefore.
- d. The rental time to be paid for equipment on the Site will be the time the equipment is in productive operation on the extra Work being performed and, in addition, will include the time required to move the equipment to the location of the extra Work and return it to the original location or to another location requiring no more time than that required to return it to its original location. Rental time will not be allowed while equipment is inoperative due to breakdowns. The rental time of equipment on the work Site will be computed subject to the following:
  - 1) When hourly rates are listed, any part of an hour less than 30 minutes of operation will be considered to be half-hour of operation, and any part of an hour in excess of 30 minutes will be considered one hour of operation.
  - 2) When daily rates are listed, any part of a day less than 4 hours operation will be considered to be half-day of operation. When owner-operated equipment is used to perform extra Work to be paid for on a time and materials basis, the Contractor will be paid for the operator(s), as set forth in Article 11.01.
- e. Sales, consumer, use, and other similar taxes related to the Work, and for which Contractor is liable, as imposed by Laws and Regulations.

- f. Deposits lost for causes other than negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, and royalty payments and fees for permits and licenses.
- g. Losses and damages (and related expenses) caused by damage to the Work, not compensated by insurance or otherwise, sustained by Contractor in connection with the performance of the Work (except losses and damages within the deductible amounts of property insurance established in accordance with Paragraph 5.06), provided such losses and damages have resulted from causes other than the negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable. Such losses shall include settlements made with the written consent and approval of Owner. No such losses, damages, and expenses shall be included in the Cost of the Work for the purpose of determining Contractor's fee.
- h. The cost of utilities, fuel, and sanitary facilities at the Site.
- i. Minor expenses such as, long distance telephone calls, telephone service at the Site, express and courier services, and similar petty cash items in connection with the Work.
- j. The costs of premiums for all bonds and insurance Contractor is required by the Contract Documents to purchase and maintain.

B. *Costs Excluded:* The term Cost of the Work shall not include any of the following items:

- 1. Payroll costs and other compensation of Contractors officers, executives, principals (of partnerships and sole proprietorships), general managers, safety managers, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expeditors, timekeepers, clerks, and other personnel employed by Contractor, whether at the Site or in Contractor's principal or branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications referred to in Paragraph 11.01.A.1 or specifically covered by Paragraph 11.01.A.5, all of which are to be considered administrative costs covered by the Cost of the Work.
- 2. Expenses of Contractors principal and branch offices other than Contractors office at the Site.
- 3. Any part of Contractors capital expenses, including interest on Contractors capital employed for the Work and charges against Contractor for delinquent payments.
- 4. Costs due to the negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable,

including but not limited to, the correction of defective Work, disposal of materials or equipment wrongly supplied, and making good any damage to property.

5. Costs due to rework to correct defective Work performed by Contractor, any Subcontractor, or any one for whom Contractor is responsible; excluding design errors or omissions.
  6. Costs due to the fault of the Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, including but not limited to fines or penalties imposed by governmental entities, remediation costs, or environmental clean-up costs caused or resulting from violations of law or negligence of Contractor.
  7. Costs of fines or penalties or other costs arising from or resulting from criminal acts, willful acts, or gross negligence of Contractor or of those for whom Contractor is responsible.
  8. Bonuses paid in whatever form.
  9. Paid time off in place of, or in addition to, actual time off.
  10. Standby costs due to the fault of the Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them.
  11. Royalties, damages for infringement of patents and costs of defending suits therefore, and deposits lost for causes not directly attributable to Owner.
  12. Other overhead or general expense costs of any kind and the costs of any item not specifically and expressly included in Paragraphs 11.01.A including, but not limited to (a) expenses for travel or staff training not directly related to the Project; (b) income taxes of any kind; (c) gross receipts taxes of any kind; (d) taxes on profits of any kind; and (e) increases in the rate of income taxes, profits taxes, or gross receipts taxes. For the avoidance of any doubt, taxes included under this Paragraph 11.01.B.12 (and expressly not included in the Cost of Work) include but are not limited to: (a) Federal Corporate Income Tax; (b) Federal Individual Income Tax; (c) Oregon Corporate Income Tax; (d) Oregon Individual Income Tax; (e) Oregon Corporate Activity Tax; (f) Metro Supportive Housing Services Income Tax; (g) City of Portland Business License Tax; (h) Multnomah County Business Income Tax; and (i) Multnomah County Preschool for All Income Tax.
- C. *Contractor's Fee:* When all the Work is performed on the basis of cost-plus, Contractor's fee shall be determined as set forth in the Contract. When the value of any Work covered by a Change Order or when a Claim for an adjustment in Contract Price

is determined on the basis of Cost of the Work, Contractor's fee shall be determined as set forth in Paragraph 12.01.C.

- D. *Documentation:* Whenever the Cost of the Work for any purpose is to be determined pursuant to Paragraphs 11.01.A and 11.01.B, Contractor will establish and maintain records thereof in accordance with generally accepted accounting practices and submit in a form acceptable to Owner's Representative an itemized cost breakdown together with supporting data.

#### 11.02 *Allowances*

- A. It is understood that Contractor has included in the Contract Price all allowances so named in the Contract Documents and shall cause the Work so covered to be performed for such sums and by such persons or entities as may be acceptable to Owner's Representative.
- B. *Cash Allowances:*
1. Contractor agrees that:
    - a. The cash allowances include the cost to Contractor (less any applicable trade discounts) of materials and equipment required by the allowances to be delivered at the Site, and all applicable taxes; and
    - b. Contractor's costs for unloading and handling on the Site, labor, installation, overhead, profit, and other expenses contemplated for the cash allowances have been included in the Contract Price and not in the allowances, and no demand for additional payment on account of any of the foregoing will be valid.
- C. Prior to final payment, an appropriate Change Order will be issued as recommended by Owner to reflect actual amounts due Contractor on account of Work covered by allowances, and the Contract Price shall be correspondingly adjusted.

#### 11.03 *Unit Price Work*

- A. Where the Contract Documents provide that all or part of the Work is to be Unit Price Work, initially the Contract Price will be deemed to include for all Unit Price Work an amount equal to the sum of the unit price for each separately identified item of Unit Price Work times the estimated quantity of each item as indicated in the Contract.
- B. The estimated quantities of items of Unit Price Work are not guaranteed and are solely for the purpose of comparison of Bids and determining an initial Contract Price. Determinations of the actual quantities and classifications of Unit Price Work performed by Contractor will be made by Owner subject to the provisions of Paragraph 8.04.

- C. Each unit price will be deemed to include an amount considered by Contractor to be adequate to cover Contractor's overhead and profit for each separately identified item.
- D. Owner or Contractor may make a Claim for an adjustment in the Contract Price in accordance with Paragraph 10.05 if:
  - 1. The quantity of any item of Unit Price Work performed by Contractor differs materially and significantly from the estimated quantity of such item indicated in the General Requirements; and
  - 2. There is no corresponding adjustment with respect to any other item of Work; and
  - 3. Contractor believes that Contractor is entitled to an increase in Contract Price as a result of having incurred additional expense or Owner believe that Owner are entitled to a decrease in Contract Price and the parties are unable to agree as to the amount of any such increase or decrease.

## **ARTICLE 12 – CHANGE OF CONTRACT PRICE; CHANGE OF CONTRACT TIMES**

### 12.01 *Change of Contract Price*

- A. The Contract Price may only be changed by a Change Order. Any Claim for an adjustment in the Contract Price shall be based on written Notice submitted by the party making the Claim to Owner in accordance with the provisions of Paragraph 10.05.
- B. The value of any Work covered by a Change Order or of any Claim for an adjustment in the Contract Price will be determined as follows:
  - 1. Where the Work involved is covered by unit prices contained in the Contract Documents, by application of such unit prices to the quantities of the items involved (subject to the provisions of Paragraph 11.03); or
  - 2. Where the Work involved is not covered by unit prices contained in the Contract Documents, by a mutually agreed lump sum (which may include an allowance for overhead and profit not necessarily in accordance with Paragraph 12.01.C.2); or
  - 3. Where the Work involved is not covered by unit prices contained in the Contract Documents and agreement to a lump sum is not reached under Paragraph 12.01.B.2, on the basis of the Cost of the Work (determined as provided in Paragraph 11.01) plus a Contractor's fee for overhead and profit (determined as provided in Paragraph 12.01.C).
- C. *Contractor's Fee:* The Contractor's fee for overhead and profit shall be determined as follows:

1. A mutually acceptable fixed fee; or
2. If a fixed fee is not agreed upon, then a fee based on the following percentages of the various portions of the Cost of the Work:

  - b. For costs incurred under Paragraph 11.01.A.3, the Contractor's fee shall be five percent;
  - c. Where one or more tiers of subcontracts are on the basis of Cost of the Work plus a fee and no fixed fee is agreed upon, the intent of Paragraphs 12.01.C.2.a and 12.01.C.2.b is that the Subcontractor who actually performs the Work, at whatever tier, will be paid a fee of 10 percent of the costs incurred by such Subcontractor under Paragraphs 11.01.A.1 and 11.01.A.2 and that any higher tier Subcontractor and Contractor will each be paid a fee of five percent of the amount paid to the next lower tier Subcontractor;
  - d. No fee shall be payable on the basis of costs itemized under Paragraphs 11.01.A.4, 11.01.A.5, and 11.01.B;
  - e. The amount of credit to be allowed by Contractor to Owner for any change which results in a net decrease in cost will be the amount of the actual net decrease in cost plus a deduction in Contractor's fee by an amount equal to five percent of such net decrease; and
  - f. When both additions and credits are involved in any one change, the adjustment in Contractor's fee shall be computed on the basis of the net change in accordance with Paragraphs 12.01.C.2.a through 12.01.C.2.e, inclusive.

#### 12.02 *Change of Contract Times*

- A. The Contract Times (or Milestones) may only be changed by a Change Order. Any Claim for an adjustment in the Contract Times shall be based on written submitted by the party making the Claim to Owner in accordance with the provisions of Paragraph 10.05.
- B. Any adjustment of the Contract Times (or Milestones) covered by a Change Order or any Claim for an adjustment in the Contract Times will be determined in accordance with the provisions of this Article 12 and the General Requirements.

### 12.03 *Delays*

- A. Where Contractor is prevented from completing any part of the Work within the Contract Times (or Milestones) due to delay beyond the control of Contractor, the Contract Times (or Milestones) will be extended in an amount equal to the time lost due to such delay if a Claim is made therefor as provided in Paragraph 12.02.A. Delays beyond the control of Contractor shall include, but not be limited to, acts or neglect by Owner, acts or neglect of utility owner or other contractors performing other work as contemplated by Article 7, or Acts of God.
- B. If Owner, Engineer, or other contractors or utility owner performing other work for Owner as contemplated by Article 7, or anyone for whom Owner has control, delays, disrupts, or interferes with the performance or progress of the Work, then Contractor shall be entitled to an equitable adjustment in the Contract Price or the Contract Times (or Milestones), or both. Contractor's entitlement to an adjustment of the Contract Times (or Milestones) is conditioned on such adjustment being essential to Contractor's ability to complete the Work within the Contract Times (or Milestones).
- C. If Contractor is delayed in the performance or progress of the Work by Acts of God, acts or failures to act of utility owner not under the control of Owner, or other causes not the fault of and beyond control of Owner and Contractor, then Contractor shall be entitled to an equitable adjustment in Contract Times (or Milestones), if such adjustment is essential to Contractor's ability to complete the Work within the Contract Times. Such an adjustment shall be Contractor's sole and exclusive remedy for the delays described in this Paragraph 12.03.C.
- D. Owner, Engineer, and their officers, directors, members, partners, employees, agents, consultants, or subcontractors shall not be liable to Contractor for any claims, costs, losses, or damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) sustained by Contractor on or in connection with any other project or anticipated project.
- E. Contractor shall not be entitled to an adjustment in Contract Price or Contract Times (or Milestones) for delays within the control of Contractor. Delays attributable to and within the control of a Subcontractor or Supplier shall be deemed to be delays within the control of Contractor.
- F. In no event shall Owner be liable to Contractor, any Subcontractor, any Supplier, or any other person or organization, or to any surety for or employee or agent of any of them, for damages arising out of or resulting from:
  - 1. Delays caused by or within the control of Contractor; or

2. Delays beyond the control of both Owner and Contractor including but not limited to fires, floods, epidemics, abnormal weather conditions, acts of God, or acts or neglect by utility owner or other contractors performing other work as contemplated by Article 7, unless provided for in Paragraph 15.01.
3. Nothing in this Paragraph 12.03.F bars a change in Contract Price pursuant to this Article 12 to compensate Contractor due to delay, interference, or disruption directly attributable to actions or inactions of Owner or anyone for whom Owner is responsible.

**ARTICLE 13 – TESTS AND INSPECTIONS; CORRECTION, REMOVAL OR ACCEPTANCE OF DEFECTIVE WORK**

13.01 *Notice of Defects*

13.02 *Access to Work*

- A. Owner, Engineer, their consultants and other representatives and personnel of Owner, independent testing laboratories, and governmental agencies with jurisdictional interests will have access to the Site and the Work at reasonable times for their observation, inspection, and testing. Contractor shall provide them proper and safe conditions for such access and advise them of Contractor's safety procedures and programs so that they may comply therewith as applicable.

13.03 *Tests and Inspections*

- A. Contractor shall give Owner's Representative minimum 48-hours' notice of readiness of the Work for all required inspections, tests, or approvals and shall cooperate with inspection and testing personnel to facilitate required inspections or tests.
- B. Owner shall employ and pay for the services of an independent testing laboratory to perform all field inspections, tests, or approvals required by the Contract Documents except:
  1. For inspections, tests, or approvals covered by Paragraphs 13.03.C and 13.03.D below;
  2. That costs incurred in connection with tests or inspections conducted pursuant to Paragraph 13.03.C shall be paid as provided in Paragraph 13.03.D; and

3. As otherwise specifically provided in the General Requirements.
- C. If Laws or Regulations of any public body having jurisdiction require any Work (or part thereof) specifically to be inspected, tested, or approved by an employee or other representative of such public body, Contractor shall assume full responsibility for arranging and obtaining such inspections, tests, or approvals, pay all costs in connection therewith, and furnish Owner the required certificates of inspection or approval.
- D. Contractor shall be responsible for arranging and obtaining and shall pay all costs in connection with any inspections, tests, or approvals required for Owner's and Engineer's acceptance of materials or equipment to be incorporated in the Work; or acceptance of materials, mix designs, or equipment submitted for approval prior to Contractor's purchase thereof for incorporation in the Work. Such inspections, tests, or approvals shall be performed by organizations acceptable to Owner and Engineer.
- E. If any Work (or the work of others) that is to be inspected, tested, or approved is covered by Contractor without written concurrence of Owner, Contractor shall, if requested by Owner, uncover such Work for observation.
- F. Uncovering Work as provided in Paragraph 13.03.E shall be at Contractor's expense unless Contractor has given Owner timely notice of Contractor's intention to cover the same and Owner have not acted with reasonable promptness in response to such notice.

#### 13.04 *Uncovering Work*

- A. If any Work is covered prior inspection by Owner without Owner's consent, the Work must, if requested by Owner's Representative, be uncovered for Owner's observation and re-covered at Contractor's expense.
- B. If any Work is covered prior to inspection by Owner with Owner's consent, Owner may order the Work to be uncovered if Owner considers it necessary or advisable that covered Work be observed by Owner or inspected or tested by others. In such event, Contractor, at Owner's request, shall uncover, expose, or otherwise make available for observation, inspection, or testing as Owner may require, that portion of the Work in question, furnishing all necessary labor, material, and equipment.
  1. If it is found that the uncovered Work is defective, Contractor shall pay all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such uncovering, exposure, observation, inspection, and testing, and of satisfactory replacement or reconstruction (including but not limited to all costs of repair or replacement of work of others); and Owner shall be entitled to an appropriate decrease in the Contract Price. If the parties

are unable to agree as to the amount thereof, Owner may make a Claim therefor as provided in Paragraph 10.05.

2. If the uncovered Work is not found to be defective, Contractor shall be allowed an increase in the Contract Price or an extension of the Contract Times (or Milestones), or both, directly attributable to such uncovering, exposure, observation, inspection, testing, replacement, and reconstruction. If the parties are unable to agree as to the amount or extent thereof, Contractor may make a Claim therefor as provided in Paragraph 10.05.

#### 13.05 *Owner May Stop the Work*

Contractor shall be granted an adjustment in the Contract Price or an extension of the Contract Times, or both, for cost and time impacts directly attributable to any such suspension if Contractor makes a Claim therefor as provided in Paragraph 10.05.
- B. Contractor's Claim for an adjustment in the Contract Price for any such suspension of Work shall not exceed five thousand dollars (\$5,000.00) for each business day that Work is suspended. Contractor shall waive all Claims to the abovementioned stipulated damages for the first three (3) business days of suspended Work following the day of discovery if the suspension is caused by one or more of the following Site conditions: findings of (i) cultural, archeological, or historical significance; (ii) plant and/or wildlife in areas of the natural habitat; (iii) conditions preventing Work due to permit compliance requirements; (iv) Hazardous Environmental Condition; and/or (v) evidence of criminal or tortious acts.
- C. In no event shall an equitable adjustment be made for the benefit of Contractor to the extent the suspension arises from faulty workmanship or material, improper supervision, Contractor's failure to carry out orders or perform and provision of the Contract Documents.
- D. Any delays associated with the Pre-Mobilization Standby, for which Contractor is compensated shall not be subject to this Paragraph 15.01.

15.02 *Owner May Terminate for Cause*

- A. The occurrence of any one or more of the following events will justify termination for cause:
1. Contractor's failure to perform the Work in accordance with the Contract Documents (including, but not limited to, failure to supply sufficient skilled workers or suitable materials or equipment or failure to adhere to the Baseline Schedule established under Paragraph 2.04 as adjusted monthly pursuant to Paragraph 6.04);
  2. Contractor's disregard of Laws or Regulations of any public body having jurisdiction;

1. Exclude Contractor from the Site, and take possession of the Work and of all Contractor's tools, appliances, construction equipment, and machinery at the Site, and use the same to the full extent they could be used by Contractor (without liability to Contractor for trespass or conversion);
  2. Incorporate in the Work all materials and equipment stored at the Site or for which Owner have paid Contractor but which are stored elsewhere; and
  3. Complete the Work as Owner may deem expedient.
- C. If Owner proceed as provided in Paragraph 15.02.B, Contractor shall not be entitled to receive any further payment until the Work is completed. If such claims, costs, losses, and damages exceed such unpaid balance, Contractor shall pay the difference to Owner. Such claims, costs, losses, and damages incurred by Owner will be reviewed by Owner's Representative as to their reasonableness and, when so approved by Engineer, incorporated in a Change Order. When exercising any rights or remedies under this Paragraph, Owner shall not be required to obtain the lowest price for the Work performed.

- D. Notwithstanding Paragraphs 15.02.B and 15.02.C, Contractor's services will not be terminated if Contractor begins within seven (7) days of receipt of notice of intent to terminate to correct its failure to perform and proceeds diligently to cure such failure within no more than thirty (30) days of receipt of said notice.
- E. Where Contractor's services have been so terminated by Owner, the termination will not affect any rights or remedies of Owner against Contractor then existing or which may thereafter accrue. Any retention or payment of moneys due Contractor by Owner will not release Contractor from liability.
- F. If and to the extent that Contractor has provided a performance bond under the provisions of Paragraph 5.01.A, the termination procedures of that bond shall supersede the provisions of Paragraphs 15.02.B and 15.02.C.

#### 15.03 *Owner May Terminate For Convenience*

- A. Upon seven days (7) written Notice to Contractor, Owner may, without cause and without prejudice to any other right or remedy of Owner, terminate the Contract or a portion thereof. In such case, Contractor shall be paid for (without duplication of any items):

  - 3. All claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) incurred in settlement of terminated contracts with Subcontractors, Suppliers, and others; and
  - 4. Reasonable expenses directly attributable to termination.
- B. Contractor shall not be paid on account of loss of anticipated profits or revenue or other economic loss arising out of or resulting from such termination.

#### 15.04 *Contractor May Stop Work or Terminate*

- (ii) Owner's Representative fails to act on any Application for Payment within thirty (30) days after it is submitted, or (iii) Owner fails for thirty (30) days to pay Contractor any sum finally determined to be due, then Contractor may, upon seven (7) days' written Notice to Owner, and provided Owner does not remedy such suspension or failure within that time, terminate the Contract and recover from Owner payment on the same terms as provided in Paragraph 15.03.
- B. In lieu of terminating the Contract, and without prejudice to any other right or remedy, if Owner's Representative has failed to act on an Application for Payment within thirty (30) days after it is submitted, or Owner has failed for thirty (30) days to pay Contractor any sum finally determined to be due, Contractor may, seven (7) days after written Notice to Owner, stop the Work until payment is made of all such amounts due Contractor, including interest thereon. The provisions of this Paragraph 15.04 are not intended to preclude Contractor from making a Claim under Paragraph 10.05 for an adjustment in Contract Price or Contract Times or otherwise for expenses or damage directly attributable to Contractor's stopping the Work as permitted by this Paragraph.

#### **ARTICLE 16 – DISPUTE RESOLUTION**

- A. If a dispute arises between the parties relating to this Contract, the procedure below shall be followed as a condition precedent to litigation:
1. The aggrieved party will notify the other party in writing describing the dispute and requested relief (Notice of Dispute). The parties shall hold a meeting promptly, but in no event later than thirty (30) days from the initial written Notice of Dispute, attended by persons with decision-making authority regarding the dispute, to attempt in good faith to negotiate a resolution of the dispute; provided, however, that no such meeting shall be deemed to vitiate or reduce the obligations and liabilities of the parties thereunder or be deemed a waiver by a party hereto of any remedies to which such party would otherwise be entitled thereunder unless otherwise agreed to by the party in writing.
  2. If, following thirty (30) days of such meeting, the parties have not succeeded in negotiating a resolution of the dispute, either party may notify the other of its election to submit the dispute to non-binding mediation (Election to Mediate). The parties shall exercise good faith efforts to select a mediator who is an Oregon member of the National Academy of Distinguished Neutrals or such other person as they mutually agree. The mediator shall be compensated equally by both parties. Mediation will be conducted in Portland, Oregon, unless both parties agree in writing otherwise. Both parties agree to exercise good faith efforts to resolve disputes covered by this Section through this mediation process.

3. Mediation shall be completed within sixty (60) days from the date of Election to Mediate unless the parties agree otherwise. The parties hereby expressly agree that no claim or dispute arising under the terms of this Contract shall be resolved other than first through mediation and, only in the event said mediation efforts fail, through litigation. If a party requests mediation and the other party fails to respond within ten (10) days of the Election to Mediate, or if the party fail to agree on a mediator within ten (10) days of the Election to Mediate, or if mediation is completed within sixty (60) days without resolution, then the aggrieved party may commence litigation and assert all claims under this Contract.

## Bid Results

Company	Cost Proposal	Variance from Low Bid	Percent Difference
Kerr Contractors	\$53,910,918.00	\$4,695,147.00	9.54%
Emery & Sons	\$49,215,771.00	\$0.00	0.00%

- Internal review for cost errors, ambiguities, apparent unbalance of unit pricing, apparent front-end loading and pricing that is commensurate with current market conditions
- Based on the evaluation of the submitted bids, Emery & Sons was the lowest responsive bidder and the respondent determined to be the most advantageous to the Owner

## Budget Information

Baseline 7.0 (Q1 2022) for MPE_1.3	
Baseline 7.0 Construction + Contingency Budget	\$45,336,754
<b>Total Contract Price</b>	<b>\$49,215,771</b>

**STAFF REPORT**

**To:** WWSS Board of Commissioners  
**From:** Joelle Bennett, P.E., WWSP Assistant Program Director  
**Date:** May 5, 2022  
**Subject:** Anticipated Business Agenda Items for the June 2022 Meeting of the WWSS Board of Commissioners

---

**Key Concepts:**

The next Willamette Water Supply System (WWSS) Commission Board meeting agenda is anticipated to include staff recommendations for the following business agenda items:

1. RWF\_1.0 GMP 1.5 for Construction
2. WWSP Program and Construction Management Services FY 2023 Annual Work Plan

**Background:**

The following are anticipated business agenda items for the June 2, 2022, meeting of the WWSS Board of Commissioners. Due to the dynamic nature of the WWSS work, request for approval of some items may be delayed or new items may emerge on the business agenda next month. WWSS staff strive to provide preliminary information one month prior to requesting action and a full staff report describing the recommended action during the appropriate month.

1. RWF\_1.0 GMP 1.5 for Construction

Construction of the RWF\_1.0 Phase 1 work is complete, and the Phase 2 work is anticipated to begin in Fall 2022. Multiple items, such as completing the in-water work pile driving, upper site utility work, and lower site drainage improvements, have been identified as ideal summer work items and have been moved ahead of schedule into Guaranteed Maximum Price (GMP) "1.5" for delivery this year. The anticipated value of the work is \$2.9 M.

WWSP staff will provide an overview of the scope and budget and recommend approval at the next WWSS Board meeting.

2. WWSP Program and Construction Management Services FY 2023 Annual Work Plan

Stantec Consulting Services Inc. (Stantec) is contracted to provide program and construction management services for the WWSP through 2026. Specific services are authorized on an annual basis through approval of an annual work plan. The FY 2023 annual work plan identifies Stantec's planned services, planned staffing, estimated fees, and key assumptions for delivery of program and construction management support services that are correlated to WWSP's 2022 Baseline 7.0. The estimated fee for the WWSP Program and Construction Management Services FY 2023 Annual Work Plan is approximately \$24.8 M.

WWSP staff will provide an overview of the work plan and recommend approval at the next WWSS Board meeting.

## **STAFF REPORT**

**To:** WWSS Board of Commissioners  
**From:** David Kraska, P.E., WWSS General Manager  
**Date:** May 5, 2022  
**Subject:** Discussion of Fiscal Year 2022-23 Board Meeting Dates and Meeting Location

---

### **Key Concepts:**

- Staff request direction on potentially refining the WWSS Commission Board meeting schedule to conduct business (per WWSS Intergovernmental Agreement (IGA) Article 5.2), as the number and frequency of anticipated approval items are limited in this phase of the program.
- Staff also request direction on whether meetings should be held in-person, online, or using a hybrid approach.

### **Background:**

#### *Meeting Frequency*

To conduct regular business for the WWSS Commission, the Board of Commissioners needs to set regular business meeting dates. The IGA requires at least quarterly meetings per year and up until this point, we have held monthly meetings during the design of the WWSS. Now that the program has completed design and all projects are either complete or in construction, there are fewer actions that require Board approval.

To be respectful of Commissioner schedules, staff recommend reducing meeting frequency to every-other month meetings, on even-numbered months, beginning in October 2022. To allow for flexibility, placeholder appointments can be scheduled for the odd-numbered months and additional meetings added to the official calendar if needed.

A draft resolution is attached to demonstrate the specific schedule of Board meeting dates for Fiscal Year 2022-23. The Board of Commissioners has the ability to meet more frequently as needed or to change meeting dates.

Staff would appreciate feedback on this proposal.

#### *Meeting Location*

For the past two years, the Board of Commissioners has been meeting online, using tools like Microsoft Teams, to reduce the spread of COVID-19. We have been successful using the online meeting tools, but with masking and social distancing restrictions lifted across the state, the Commissioners may prefer to return to in-person meetings or potentially a hybrid approach.

The Board of Commissioners formerly met at the Tualatin Valley Water District Board Room for in-person meetings. The room is being enhanced to accommodate hybrid meetings, but that technology is not yet ready to use. July 2022 is likely the earliest month for which the technology will be available.

Staff would appreciate Commissioner feedback on meeting location.
