Report of Independent Auditors

The Board of Commissioners
Willamette Intake Facilities Commission

Report on the Financial Statements

We have audited the accompanying basic financial statements of Willamette Intake Facilities Commission ("Commission") which comprise the statements of net position as of June 30, 2021 and 2020, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these basic financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Willamette Intake Facilities Commission as of June 30, 2021 and 2020, and the results of its operations and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Commission's financial statements. The schedule of revenues, expenditures and changes in fund balance – budget and actual are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2021 on our consideration of Willamette Intake Facilities Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Willamette Intake Facilities Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Willamette Intake Facilities Commission's internal control over financial reporting and compliance.

Report on Other Legal and Regulatory Requirements

In accordance with the Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 2, 2021, on our consideration of the District's compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Portland, Oregon December 2, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

Beaverton, Oregon

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED JUNE 30, 2021 AND 2020

As management of the Willamette Intake Facilities Commission (the Commission), a joint venture of Tualatin Valley Water District and the cities of Beaverton, Hillsboro, Sherwood, Tigard, and Wilsonville, we offer readers of the Commission's financial statements this narrative overview and analysis of the Commission's financial activities for the fiscal years ended June 30, 2021 and June 30, 2020. The Commission was formed in April 2018 to own, operate, and maintain the Willamette intake facilities.

These financial statements include this Management's Discussion and Analysis (MD&A) section to provide users of the basic financial statements with an overview and analysis of the statements.

Financial Highlights

- Net position (assets minus liabilities) was \$16.1 million and \$10.1M at June 30, 2021 and June 30, 2020 respectively. Net investment in capital assets is the largest portion of the Commission's net position.
- Net position increased by \$6.0 million and \$0.4 million for years ended June 30, 2021 and June 30, 2020, respectively.
- As of June 30, 2021 the Commission had no outstanding debt.
- Construction in progress increased by \$6.4 million and \$0.6 million for years ended June 30, 2021 and June 30, 2020, respectively. Capital assets were contributed by the parties to the Commission in 2021 and 2020.

Overview of the Financial Statements

Taken together the sections of the financial statements provide a comprehensive financial look at the Commission. The individual components of the report include the following:

- Management's Discussion and Analysis. This section of the report provides an overview of financial highlights and economic factors affecting the Commission.
- ➤ Basic Financial Statements. This section includes the Statements of Net Position, Statements of Revenues, Expenses and Changes in Net Position, Statements of Cash Flows, and Notes to Basic Financial Statements. The Statements focus on an entity-wide presentation using the accrual basis of accounting. They are designed to resemble more closely private-sector financial statements in that all activities are consolidated into a total for the Commission.
 - The Statements of Net Position focuses on resources available for future operations. This statement presents a snap-shot of the assets of the Commission, its liabilities, and the net difference.
 - The Statements of Revenues, Expenses and Changes in Net Position focuses on the current year operating results and the change in capital as a result of the current year operations.

Beaverton, Oregon

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED JUNE 30, 2021 AND 2020

- The Statements of Cash Flows focuses on how the Commission obtained and expended its available cash and investments.
- The Notes to the Basic Financial Statement provides additional disclosures required by generally accepted accounting principles and provides information to assist the reader in understanding the Commission's financial condition.

Statements of Net Position

The Commission's assets exceeded liabilities by \$16.1 million and \$10.1 million at June 30, 2021 and June 30, 2020, respectively. This represents an increase of 59.2%. Net investment in capital assets represents the largest portion of the Commission's net position and had balances of \$14.7 million and \$9.8 million at June 30, 2021 and June 30, 2020, respectively. A condensed version of the statements of Net Position as of June 30, 2021 and June 30, 2020 is as follows:

Table 1:

	2021		2020	2019	2	021 -2020 Change	2	021-2019 Change

The operating expenses for the Commission's activities totaled \$324,542 and \$248,011 for the years ended June 30, 2021 and June 30, 2020 respectively, a 30.9% increase from 2020. Operating expenses consist of administrative cost and depreciation on capital assets. Capital contributions consist of capital assets contributed by the parties to the Commission.

Beaverton, Oregon

MANAGEMENT'S DISCUSSION AND ANALYSIS YEARS ENDED JUNE 30, 2021 AND 2020

Capital Assets

The Commission has net capital assets of approximately \$16.1 million and \$10.1 million as of June 30, 2021 and June 30, 2020 respectively. These assets comprise the raw water intake and associated buildings and improvements at the Willamette River Water Treatment Plant.

Table 3:

2021	2020	2019

Debt Administration

As of June 30, 2021 and 2020, the Commission has no outstanding debt.

Economic Factors

The Commission was formed in April 2018 to own, operate and maintain the Willamette intake facilities located at the Willamette River Water Treatment Plant. Tualatin Valley Water District (the District) was appointed managing agent. Financial records are maintained by the District. Major goals of the Commission are to increase the WIF's capacity to withdraw water from the Willamette River from 120 million gallons per day (MGD) to 150 MGD and to make substantial seismic upgrades. Improvements to the WIF are underway and are anticipated to be completed by 2026.

Financial Contact

The Commission's financial statements are designed to present users including taxpayers, citizens, customers, investors, and creditors with a general overview of the Commission's finances and overall accountability. If you have questions about the contents of this report or need additional financial information, please contact Tualatin Valley Water District's Chief Financial Officer at 1850 SW 170th Avenue, Beaverton, Oregon, 97003.

NOTES TO BASIC FINANCIAL STATEMENTS

Beaverton, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2021 AND 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Willamette Intake Facilities Commission (the Commission) was organized in April 2018 under Oregon Revised Statutes (ORS), Chapter 190 and was established by an agreement between the cities of Beaverton, Hillsboro, Sherwood, Tigard, Wilsonville, and the Tualatin Valley Water District (the District). The Commission is governed by a six-member board, with one member appointed by each party. The purpose of the Commission is to provide for the ownership, management, and operation of the Willamette intake facilities (WIF) which are used to withdraw and transmit water to the parties. The Commission is managed by the Tualatin Valley Water District.

Expenses are allocated on a unit basis by the Commission. Each joint venturers' apportioned share of the general administration expenses is determined by the following formula: 25% of the administrative costs for the fiscal year is divided evenly among the Commission's membership; the remainder is divided among the Commission membership according to their percentage share of the capacity ownership in the intake facilities.

Operations, maintenance, and repair expenses that result from the use of the facilities are allocated based on each party's proportionate use of the WIF. Depreciation, operations, maintenance, and repair expenses unrelated to usage are allocated based on each party's proportionate ownership of the WIF.

The following ownership percentages were in effect at June 30, 2021:

City of Beaverton	3.3%
City of Hillsboro	24.1%
City of Sherwood	6.5%
City of Tigard	10.0%
City of Wilsonville	16.7%
Tualatin Valley Water District	39.4%

Basis of Presentation and Accounting

For financial reporting purposes, the Commission reports its operations on an enterprise fund basis. Enterprise funds (a propriety fund type) are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, liabilities and net position associated with the operations are included on the Statements of Net Position. The Statements of Revenues, Expenses and Changes in Net Position present increases (revenues) and decreases (expenses) in net position.

Beaverton, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2021 AND 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The accrual basis of accounting is used for financial reporting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Operating revenues result from providing services to the joint venturers. All revenues not meeting this definition are reported as nonoperating revenues. Operating expenses are defined as those expenses directly related to providing services.

Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues, expenses, and other disclosures. Accordingly, actual results may differ from those estimates.

Cash and Investments

Cash and investments of the Commission are part of a common cash and investment pool maintained for all funds managed by the District. The Commission considers these items to be demand deposit accounts, where funds may be deposited or withdrawn without prior notice or penalty.

Accounts Receivable

Accounts receivable are recorded as earned and no allowance for doubtful accounts is required as all receivables are due from the joint venturers.

Capital Assets

Capital assets are recorded at cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation. All costs associated with the acquisition or construction of capital assets are contributed by the joint venturers.

The Commission defines capital assets as assets with an initial cost of \$7,500 and an estimated useful life of more than one year.

Depreciation on capital assets placed in service is computed on the straight-line method over the following estimated useful lives:

	Years
Raw water intake	75
Buildings and improvements	40

Net Position

The Commission's net position consists of the various net earnings from operating revenues and expenses and contributions of capital. Net position is classified in the following two components: net investment

Beaverton, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS YEARS ENDED JUNE 30, 2021 AND 2020

in capital assets, and unrestricted net position. Net investment in capital assets consists of all capital assets, net of accumulated depreciation, and capital-related accounts payable. Unrestricted net position consists of all other net positions not included in other categories.

Budgets

The Commission is an organization formed under ORS, Chapter 190 Intergovernmental Agreement (IGA) which requires the Board to adopt a work plan and budget. The Commission is accounted for as a fund within the structure of the District, where the budget is prepared and legally adopted for the Commission as part of the total budget for the District. The budget is prepared on a biennial basis as a separate fund on the modified accrual basis of accounting and complies with Oregon Local Budget Law. The level of budgetary control is established at the object classifications (personnel services, materials and services, capital outlay, and contingency).

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Commissioners
Willamette Intake Facilities Commission

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Willamette Intake Facilities Commission ("Commission") as of and for the year ended June 30, 2021, and the related notes to the financial statements, and have issued our report thereon dated December 2, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Willamette Intake Facilities Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

Moss Adams UP

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditors on Compliance and on Internal Control Over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Oregon Auditing Standards*

Board of Commissioners
Willamette Intake Facilities Commission

We have audited the basic financial statements of Willamette Intake Facilities Commission (the "Commission") as of and for the year ended June 30, 2021, and have issued our report thereon dated December 2, 2021. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the provisions of *Minimum Standards for Audits of Oregon Municipal Corporations*, prescribed by the Oregon Secretary of State. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

Compliance

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules OAR 162-10-000 to 162-10-330 of *Minimum Standards for Audits of Oregon Municipal Corporations*, noncompliance of which could have a direct and material effect on the determination of financial statement amounts.

However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to:

- The accounting records and related internal control structure.
- The use of various depositories to secure the deposit of public funds.
- The requirements relating to debt.
- The requirements relating to insurance and fidelity bond coverage.
- The appropriate laws, rules, and regulations pertaining to programs funded wholly or partially by other governmental agencies.
- The statutory requirements pertaining to the investment of public funds.
- The requirements pertaining to the awarding of public contracts and the construction of public improvements.

The results of our tests disclosed no matters of noncompliance with those provisions that are required to be reported under *Minimum Standards for Audits of Oregon Municipal Corporations*, prescribed by the Secretary of State. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

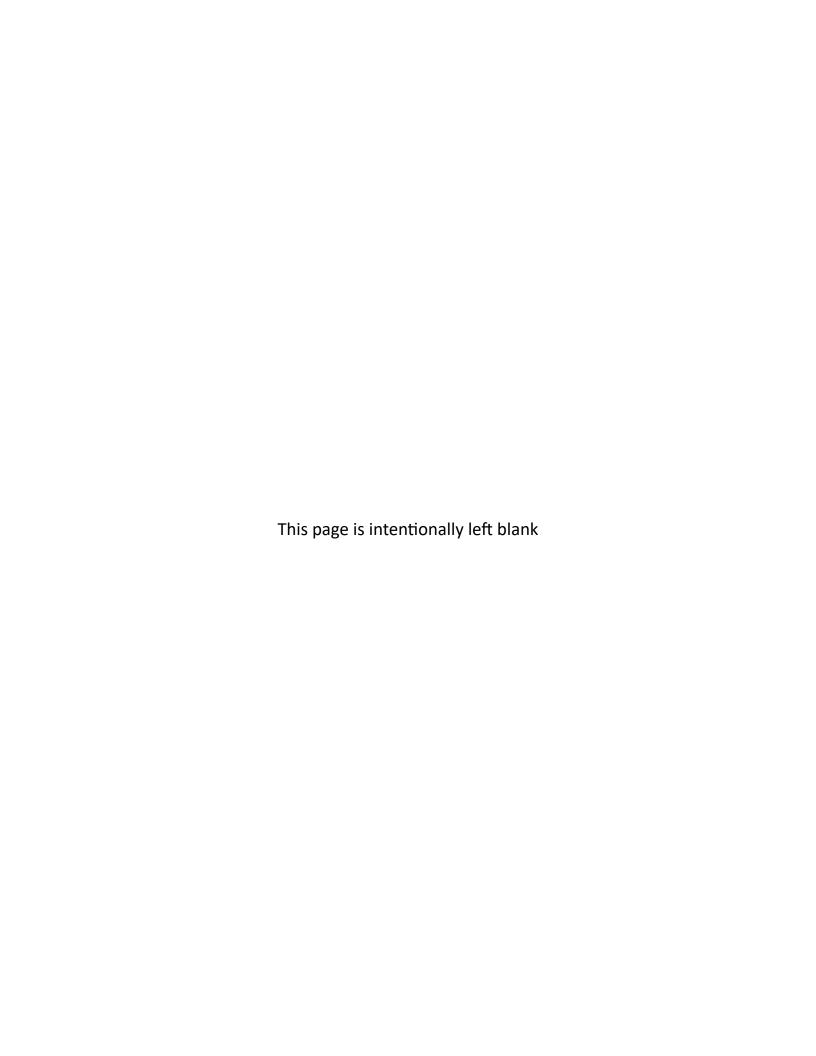

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Minimum Standards for Audits of Oregon Municipal Corporations*, prescribed by the Secretary of State, in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
